Coverage	7 - 9 m ² /l
Tools	brush or roller
Drying time	dry after approx. 30 minutes, ready for next layer after 2 hours
Containers	0,9 l, 2,7 l, 9 l

APPLICATION

Not yet painted wood : sand and dust the wood, and then apply 2 layers of UULA INTO.
Already painted wood : strip the poorly adherent layers, and clean and sand the remaining layers.

REMARKS

The current data sheet replaces any previous version.
Our advice and information are given in good faith and depending on the latest developments of our products. We guarantee the consistent quality of our products, but do not accept any liability concerning their application. In any case, we do recommend to consider the type of substrate and the climatic conditions before applying our products or to apply a test surface in order to analyse the suitability of the product for the given substrate.
In case of doubt regarding the substrate, consult our technical service department.
